Web of Science Researcher ID: AAC-3268-2019

Scopus Author ID: 57209236573

CURRENT POSITION

Senior Researcher – Since March 2017

Researcher – Since April 2012

Centre for Research in Applied Economics for Development (CREAD),

PB. 197, Street Djamal-Eddine El-Afghani, Rostomia, Bouzareah 16011, Algiers, Algeria.

Department: Human Development and Social Economics (Managing Director, Since March 2021)

Team: Population Studies.

Working Group: Actuarial Demography (Leader).

Expert at the National Committee for Population (Algeria) – Since March 2018.

Member of the National Council of Statistics (Algeria) – Since May 2021.

EDUCATION

04/2019: HDR Accreditation, High School of Statistics and Applied Economics (ENSSEA, DZ).

02/2017: PhD in Statistics and Applied Economics at ENSSEA- Subject: “[Longevity and Pension Plan Sustainability in Algeria: Taking the retirees mortality experience into account](#)”.

2011 : Post-graduation in Quantitative Finance (ENSSEA) - Subject: “[Provisionnement des Rentes Viagères en Algérie entre Approche Statique et Approche Prospective](#)”

2006: Graduation in Finance & Actuarial Science (ENSSEA) - Subject: The determinants of Civil Responsibility Car insurance premiums in Algeria.

2001: Baccalaureate in Nature and Life Sciences.

TEACHING EXPERIENCE

- Life Insurance & Retirement (Seminar) at EHEA (School of High Studies in Insurance), March 6th-7th, 2019, Algiers, Algeria.
- Population Projections with R – including dynamic presentations (Tutorial) at UNISA Actuarial School, September 2018, Salerno, Italy.
- Risk modelling in Life Insurance, Ecole Supérieure de Sécurité Sociale ESSS, Algiers, 2017-18.
- Demographic Analysis and Micro-Economics for Insurance (ENSSEA). 2009- 2013.

RESEARCH INTEREST

- Mortality & Longevity Modelling: Experience Mortality; Coherent Mortality Modelling.
- Retirement Systems Sustainability;
- Longevity & Health;

RESEARCH PROJECTS AND STUDIES

2021-2022 (ongoing)

- Spatial inequalities in terms of life expectancy and healthy life expectancy in Algeria: Contribution of health access inequalities. National Research Program on Citizens' Health, 2021-2024. (Submitted).
- The Future of Longevity, Health and Ageing in Algeria: Implication on Social Security and Life Insurance, CREAD, Role: Project Manager. https://rpubs.com/Farid_Flici/783776
- Inequalities in Life Expectancy and Healthy Life Expectancy Between Emigrants and Native Born Population in Europe, Centre d'Estudes Demografics (Barcelona), Role: Project Manager.

2019-2020

Flici, F. and Hammouda, N.E. (2020). *"Mortality in Algeria through MICS-VI survey"*. Technical Report, The Algerian Health Ministry and the UN Funds for Population UNFPA.

September 2015- September 2016

FLICI, F. (2016). "Mortality projection for the Algerian population by 2030". In collaboration with the National Committee for population in the framework of the "population projection project" conducted by the Algerian Health Ministry.

January 2015 – June 2016

FLICI, F. and HAMMOUDA, N.E. (2016). "Mortality Analysis for the Algerian population through the MICS-IV survey". For the Algerian Health Ministry and the UN Funds for Population UNFPA.

May 2014 – December 2015

"Evaluation of the consistency and efficiency of the Social protection programs in Algeria". For Algerian prim ministry. Directed by UNICEF – Algeria and assisted by Oxford Policy Management. Missions: Data Collecting, Social Expenditure analysis, and Institutional coordination.

COURSES, TUTORIALS, R PACKAGES & DATAFILES

Flici, F. (2020). Populations Projections Using R - Including Dynamic graphical Visualisations. A textbook published with Gitbook, Available at: [<https://farid-flici.gitbook.io/pop-proj-dz/>], Version of 2020-04-30.

Flici, F. (2020). Muti-Scenarios Populations Projection for Algeria - Using R . A textbook published with Gitbook, Available at: [<https://farid-flici.gitbook.io/multi-scenarios-population-projection-for-algeria/>], Version of 2020-05-06.
